PROVOST WELLCOMES

Hello everybody, Salam alaikum and welcome to NAPATA college.

NAPATA is the name of the greatest sub-Saharan African civilization that sprang in the heart of our land. It began to blossom mid eleventh century BC and survived for a Thousand years.

Tahraga the third Napatan pharaoh was named in the Bible as the protector of the sacred city (Jerusalem), NAPATA at his time was overseeing the entire African coast of the red sea, the Nile valley and eastern Mediterranean region.

With its vast agricultural and mineral wealth (gold and iron) the NAPATAN civilisation developed a significant cultural influence which was characterised by the Meroetic language.

This great civilization passed on their knowledge in chemistry medicine dentistry arithmetics , geometry , astronomy and minerals using hieroglyphic as well as Meroetic languages .

Thus bearing this great name we are inspired by a great academic legacy.

So welcome again to your new work place and congratulations for your new job at NAPATA.

Your teachers cannot wait to see you soon at the lecture theatre. They have prepared themselves to see you through the journey to get you the bachelor degree award in the discipline you have chosen for yourself. And even then your alumni administration shall, I am sure, be ready later on to overtake the responsibility of illuminating your future path and help keep your soul warm. Even those of us who teach spectacular students like you find ourselves utilising the most recent techniques to engage your attention and boost your imagination. Such techniques are so designed to ensure that you become an active listener prone to interactive class engagement. Your teachers shall use provocative questions, instructive stories, in-class experiments, educational video films, free discussions and innovative assessment methods.

Faculty members here , like all great teachers, work to inspire a love of learning in their students; however no one can want you to succeed more than you do, so the rest of the work to get the job done shall most certainly lie on your shoulders.

Do not mess up with your first semester for in it important intensive modules shall be taught including study skills the benefits of which shall hopefully remain with you for the rest of your career.

**Proper conduct is a priority in NAPATA, so you are expected to be fully observant of it's rules and regulations.
So off we go; see you beginning of November.**

Best of Luck.

**Professor Elzubeir Beshir Taha
(BA , U of K ;MSc ,Univ. Sussex ; MA
,Univ B'ham; PhD , Univ. Sheffield)**

Our Inspiration

Archaeological relics and findings of historical research indicate that Sudan has witnessed the rise and fall of regional civilizations for more than ten thousand years. Of all those civilizations the era of the Sudanese Napatan Empire was the greatest in sub-Saharan Africa. Napata Empire began to blossom mid eleventh century BC and survived for a thousand years.

The most prosperous period of the Napatan Empire is represented in Egyptology by the 25th dynasty particularly during the pharoship of Taharka (690-660 BC) during whose rule extensive pyramids, settlements and temples were built, the remains of which can still be seen.

with its vast economic and distinctive political organization the Napatan civilization was able to spread its territory to include Ethiopia east, Darfur west, Upper Nile South and across lower and upper Egypt thru to Southern Turkey Anatolia. In the seventh century before Christ, the Napatan army defeated the Assyrians and chased them out of entire Syria and Palestine thus librating the sacred city. Taharga, the third Napatan pharaoh, was named in the bible as the protector of Orshleem AlGuds.

By assuming full control over the red sea, the Napatan Empire has played an important role in international trade connecting Far East to Egyptian ports

thus interacting with Southern Europe via the Mediterranean. With its vast agricultural and mineral wealth (gold and iron), the Napatan civilization developed a significant cultural influence which was characterised by the Meroitic language that replaced the awkward hieroglyphic script with much simpler alphabets of 23 symbols including vowels which the hieroglyphic lacks.

NAPATA OBJECTIVES

To provide modernized, relevant and transformable academic programs that satisfy the needs of our local, national and global communities.

To reach international levels in standards while maintaining local values and culture.

To Create an advanced educational and research environment for our students and researchers. ICT techniques shall be heavily utilized in teaching and evaluation with regular evaluation processes that procures continuous promotion of academic dynamics.

NAPATA MISSION

As one of the higher education institutions in the country, NAPATA COLLEGE aspires to attain excellence in interacting within its national and international milieus, excellence in its rich formation of its teaching staff, multinational students, and its innovative management philosophy. NAPATA endeavors to avail cutting edge educational technology, creative instruction styles, enriched students experiences and advanced applied research. All these characterise NAPATA's MISSION for contributing its own share in the positive transformation of individuals, institution and the society at large.

NAPATA VISION

NAPATA's VISION in the course of the first five years include building productive partnerships with national and international policy making centres and with employing agents in both public and private sectors in health services, information technology, industry and public administration. Our aim is to metamorphose into a modernized and

internationally recognized digitally oriented university capable of achieving wide accreditation within ten years based on quality of partnerships with public service agents, business and industry.

Core Values

The Core Values of Napata are characterized by high quality management, team work, professionalism and accountability. We seek to be responsiveness to the needs of the country and international labour market at large . We are not confined to disseminating knowledge ,but also we stress the importance of acquisition of skills and competencies for the advancement of Humanity.

University education according to our philosophy is also about character building. We cherish programmes that raise graduates who are not only knowledgeable but also good citizens.

Napata is consistently following a quality management system (QMS) in accordance with ISO 9001 international standard to guarantee quality services and products.

- **Assistant Registrar**
- **Snr. Administrative Officer**
- **Student counsellors**
- **Assistant Administrative officer**
- **Clerks**
- **Support staff (Cleaners/messengers)**

Napata Bachelor Degree programmes

Medicine and surgery

is offered in ten semesters (five years)

Programme Coordinated:-

Dr. Tahani Aashmaig

Dentistry

Offered in ten semesters (five years)

Programme Co-ordinator :-

Dr. Abdel Nasir JAAFAR Ahmed.

Pharmacy

The mission of pharmacy education is to teach, train and help enhance professional development of graduates capable of providing safe and quality patient care in collaboration with other health workers .

Offered in ten semesters (five years)

Programme Co-ordinator :-

Iman Mohammed Eltayeb.

Medical laboratories

Offered in eight semesters (four years)

Programme Co-ordinator :-

Dr. Mohammed AbdulGadir Mahdi.

Architecture

Offered in ten semesters (five years)

Programme Co-ordinator :-

Professor Saif - al - Deen Sadig.

Psychology

Offered in eight semesters (four years)

Programme Coordinator :-

Professor Elzubeir Beshir Taha.

Information Technology

Offered in eight semesters (four years)

Programme Coordinator :-

Dr. Waleed Ibrahim Osman.

NAPATA COLLEGE TRUSTEES BOARD

- CHAIRMAN :- Professor Bakri Musa
(Consultant For Africa City of Technology)

MEMBERS OF TRUSTEES BOARD:-

- Professor Mohamed Alamin Ahmed**
(President of Al Neelain University)
